

State FFA Proficiency Practice Interview Schedule
Tuesday, June 12, 2018 – Clarion Suites Hotel – Michigan Room

The students listed below are all State FFA Proficiency Winners whose proficiency applications will be forwarded to National FFA for further competition. The purpose of the interview is to help the student with a final review of their application and also prepare them for a possible interview at the National Level if they are selected as a National Finalist. This does not in any way affect their current state placing. This is a tool to assist our state winners as they may possibly advance to further national competition.

There will be at least three people interviewing each group of five or six. **The Proficiency Winners are expected to present a one-minute statement about their SAE program.** They will then have time to visit with the interviewers more specifically about their SAE programs.

8:15 a.m. – Zachary Woodworth, Shullsburg - Ag. Mechanics Design & Fabrication
