Bookfriends, International NFP

"Bookfriends, International NFP seeks to provide hope and change to secondary school age children in Africa by providing textbooks and library book which are in desperately short supply in their local villages."

We are looking for vocational textbooks on agriculture, construction and related topics. These books can be **used** but should be in decent shape. Books with broken spines, ripped pages and books that are heavily marked with highlighters generally get tossed in our distressed book bin. A Bookfriends International sticker will be used to cover any names in the books

For more information about Bookfriends International check out their website at www.bookfriends.org.

Items will be collected at Wisconsin State FFA Convention, June 14-16, 2011. Feel free to participate in one or both! For more information about the Service Project, please contact Julie Orth, State Vice President, at jorth@wisconsinffa.org or Whitney Barnes, State Parliamentarian, at wbarnes@wisconsinffa.org.
