

Clean Water Service Project 2012

Wisconsin Association of FFA

We are partnering with **WaterDrops of Hope** and selling reusable water bottles. The proceeds go toward building wells and providing clean water for African communities in need.

As an agricultural organization we recognize that water quality is an issue around the world - nearly one billion people lack access to safe, clean water.

Let's join together as FFA members and raise enough money to build a well and help an African community with their health, fields, animals, livelihood and completely change their lives.

A **WaterDrops of Hope** reusable water bottle is the gift that keeps giving. When you drink from this bottle, you can be reminded of how you helped others half way around the world.

Our State FFA Goal: Sell 470 water bottles to build a well.

BPA Free Acrylic

_____ is helping provide clean water to families in Africa.
(put name above)

Name	Phone	Quantity (\$20/bottle)	Paid
1. _____			
2. _____			
3. _____			
4. _____			
5. _____			

Payment should be submitted at time of order.

Make checks payable to WaterDrops of Hope.

Order/Pick-up: As a chapter, set a goal of how many bottles you think you can sell, and then determine which month(s) you would like to sell. Payment and totals need to be sent to Sheri Sutton, 1 Celia Ct., Madison, WI 53711 by **February 2** if your chapter would like to pick up the bottles at Farm Forum in Wisconsin Rapids

(February 24-25), by **March 1** for bottle pick up at the 212/360

Conference in Manitowoc (March 23-24), by **April 5** for bottle pick up at the State Career Development Events in Madison (April 27)

or by **May 27** for bottle pick up at the State FFA Convention in Madison (June 11-14). (If these dates do not work for your chapter, please call Kayla Hack at 262.215.8947 and we can make other arrangements.) Thank you for joining with us to...

Give Water. Give Life. Give Hope.

This
bottle
provides
**clean
water**
and changes
lives. Girls
return to **school**.
Women begin small
businesses. Men
are no longer too sick
to work. **Food supply**
becomes more reliable
because fields are watered.
Health returns and children
grow up to be productive
members of their **community**.
The cycle of poverty
is broken.
Lives change.
