REVIEW AND ANALYZE ADDED MEMBERSHIPS

BEFORE registering the memberships you imported and/or manually added, visually review them on-screen to ensure there are no duplicates. [1] Click the different column headers to sort the data and also [2] switch between the assorted views (i.e. *Personal Information, Address and Additional Information*). If you find any duplicates, just click the trashcan icon (🗑).

	Berti	Widdup	One Year	AK	AK0014	✎	✓	🗑

Next, [3] select one, a few *or* [4] all memberships and then [5] click **Analyze Added Memberships**. The system will determine if any national or state required data is missing. It will also compare the added memberships to the active and/or expired memberships within the chapter only (*it does not perform a state/nationwide search*) and attempt to identify duplicates.

[Optional] If you have numerous memberships to review, you may want to click the Excel icon (📄) and export the data to Excel. The export will show an Errors column to aid in identifying missing state and/or national data.
